## ***Professional summary:***

I am a passionate and detail-oriented undergraduate student specializing in Software Engineering and Computer Science, with a professional certification in ICDL. My primary focus is on designing intuitive and engaging UI/UX for websites and mobile applications. Additionally, I have strong front-end development skills and a portfolio of projects that demonstrate my ability to bring user-centric designs to life through clean and efficient code. I am continuously expanding my technical and creative skills to build better digital experiences.

## ***AREAS OF EXPERTISE:***

---

### **Front-End Developer | UI/UX Designer | Office Software Specialist**

#### **Front-End Development:**

Strong command of HTML and CSS for building responsive and accessible web interfaces

Advanced knowledge of JavaScript for dynamic and interactive web applications

Practical experience with popular front-end frameworks including Bootstrap and TailwindCSS

#### **UI/UX Design:**

Proficient in Adobe XD for creating user-centric UI/UX prototypes and design systems

Developed multiple UI/UX design projects and prototypes with Adobe XD

Working knowledge of Sketch and Photoshop for graphic and interface design

### **Technical Skills:**

High-level proficiency in Microsoft Office applications (Word, Excel, PowerPoint, and Outlook)

## ***WORK EXPERIENCE***

---

Designed user interfaces for various websites and applications as a freelance UI/UX designer.

Designed the user interface for a library management software for a library administration.

Developed the library management software, handling programming tasks.

Completed a one-year IT internship at the Department of Education.

Created multiple project files using Microsoft Word and PowerPoint.

## ***EDUCATION:***

---

### **Bachelor's Degree in Computer and Software Engineering**

National University of Skills (NUS), Hamedan, Iran | 2020–2025:

Objective: To enhance my knowledge in computer science, obtain a bachelor's degree, and further develop my skills in programming and design.

## ***ADDITIONAL SKILLS:***

---

English (Fluent in writing, speaking)

- Persian (native)
